

ACCREDITED BY:

INSTITUTE OF ULTRASOUND TRAINING

(Affiliate Education Center of JUREI, Jefferson University Hospital, PHILADELPHIA, USA)

CERTIFICATE COURSE IN FETAL ECHOCARDIOGRAPHY

17-18

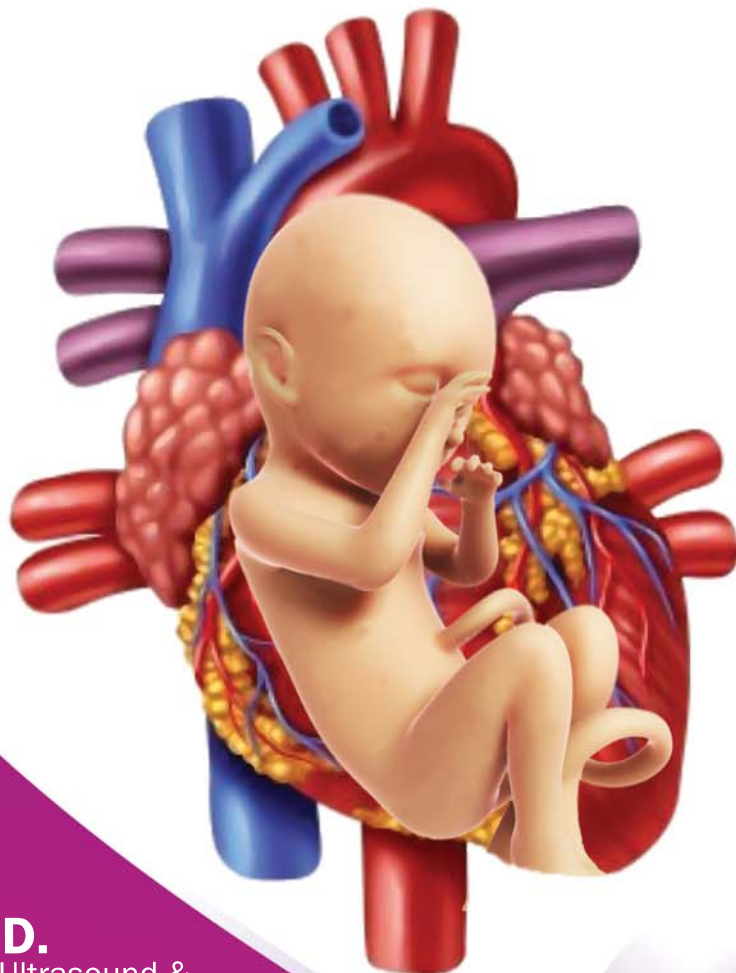

JANUARY

2017

Dubai - UAE

CME

CREDIT HOURS
OFFERED

FACULTY LED BY:

DR. J.S. RANDHAWA, M.D.

Postgraduation in Radiodiagnosis Fellowship in Ultrasound & Echocardiography, Jefferson University Hospital, Philadelphia, USA., Consultant Radiologist & Sonologist

&

Dr Sonal Randhawa, MBBS, RDMS(USA)

Fellowship in Ultrasound & Echocardiography Jefferson University, Philadelphia, USA

Secretary - Sonological Society of India

Member - Radiology Society of North America

COURSE HIGHLIGHTS:

Fetal echocardiography is an ultrasound test performed during pregnancy to evaluate the heart of the unborn baby. Echocardiography assesses the heart's structures and function. Fetal echocardiography can help detect fetal heart abnormalities before birth, allowing for faster medical or surgical intervention once the baby is born. This improves the chance of survival after delivery for babies with serious heart defects.

- Introduction and Objectives Setting, Basics Anatomy, Various Views, Normal & Abnormal Position of Heart & Great Vessels, Fetal Physiology, Fetal Arrhythmias, ASD,
- VSD, Atrial Septal Aneurysm, Transportation of Great Vessels, Fallot's Tetralogy, Double Outlet RT. Ventricle, Persistent Truncus Arteriosus
- Aortic Stenosis, Coarctation of Aorta & Pulmonary Stenosis, Cardiomyopathies, Univentricular Heart, Hypoplasia of RT. Ventricle, Hypoplastic Left Heart Syndrome, Ebstein Anomaly, Tricuspid Valve Dysplasia, Premature Closure of Ductus Arteriosus & Foramen Ovale, Interrupted IVC, Total Anomalous Pulmonary Venous Drainage.

COURSE FEE:

2800 AED

Non-refundable fee prior to 30 days of the course, 10% administrative charges will be deducted for earlier refund.
